About 7 Seas Brewing:

7 Seas Brewing strives to brew, innovate and perfect the Ultimate Proper Pint.

Formed in 2008 by Travis Guterson and Mike Runion, 7 Seas Brewing is an innovative craft brewery, making audacious, yet technically well-executed beers; utilizing cans rather than bottles; and championing environmental stewardship. Having survived a fire at our original location which delayed our opening by six months, we now occupy a 3,000 square foot brewing facility superbly located in Gig Harbor, Washington. Our tasting room is under construction and scheduled to open later this summer. Until then, please enjoy the beers of 7 Seas Brewing at our release parties and check our website (www.7seasbrewing.com) for local availability.
